HAPPY π DAY!

MARCH 14th

3.14

The earliest records of pi date back to 1600 BC in Egypt and Babylonia.

Pi: the ratio of a circle's circumference to its diameter

For all circles, the distance around the edge (c) is a little more than three times the distance across (d).

$d\pi = c$

Let's celebrate with a pizza π !

MARCH 14th IS ALSO ALBERT EINSTEIN'S BIRTHDAY

Pi is an IRRATIONAL number. Its digits go on forever without repeating!

π has nothing to do with actual pie. It is the 16th letter of the Greek alphabet.

Founded by physicist Larry Shaw, Pi Day was first celebrated in 1988.

On the occasion of International Mathematics Day (π – Day) the department of Mathematics conducted competition on the significance of π to all the undergraduate students on 14.03.2022 forenoon.

On this occasion, principal of the college Dr. K. Bhagya Lakshmi madam is invited as Chief Guest. She addressed the gathering of students and staff and revealed the significance of π . Smt. K.V. Naga Lakshmi, HOD of Mathematics enlightened the students on the importance and applications of π in real life. Faculty of the department Dr. G.
