BEST PRACTICE- 2017-18

JOY OF SHARING-GOOD PRACTICE

- Students and staff of Department of zoology practicing - **JOY OF SHARING-GOOD PRACTICE**
- In this practice we go to the nearby old age homes and physically challenged, orphan houses and distribute fruits and money.
- On 26/7/2017 we visited Zion home for the blind & handicapped and Good Shepherd old age home in Machavaram.

- In this type of practice students will save their pocket money and donate for fruits and financial help for such types of homes.
- By visiting old age homes students will be able know the agony of the old aged parents who are suffering mentally that they are not able to spend their old age days with their near and dear ones and students will develop an inner feeling that they will not abandon their parents in their life specially in old age who needs support in their last days.

- By visiting physically challenged persons houses, students will come to know how people with differently abled persons are taking their life as challenge and they will thank God for the gift of life and will not get depressed for short up comings in their life.
